

GET ACQUAINTED WITH OIL FIELDS

Engineers and Chemists
to Join in Viewing Re-
fineries and the City.

CONVENE IN ST. LOUIS

Entertainment and Banquet
in Evening Follows Talks
in City Hall.

Members of the mid-continent section of the American Society of Engineers and the Oklahoma section of the American Chemical society will hold a joint session here May 28 and 29. The annual convention of the society of engineers will be held in St. Louis the last week of May. The session here is for the purpose of making the members of the two societies who live in the mid-continent section of the country better acquainted with the oil industry. The two days will be spent in visiting refineries and making trips through the adjoining oil fields.

The following program has been arranged for the two days:
Morning of May 28, sightseeing trip over city; short business session at municipal auditorium; visit to the Cullen refinery and noonday luncheon at Texas refinery.
In the afternoon a professional session will be held at the city hall and the following program pursued:
"The Preparation of Motor Gasoline from Heavier Hydrocarbons," Prof. Fred W. Padgett, associate professor of chemistry, University of Oklahoma.
"Modern Water Purification," W. R. Holway, consulting engineer and former engineer in charge of Tulsa municipal waterworks filter plant.
"Refining of Crude Mineral Oils and the Action of Absorptive Clays on same," F. C. Thiele, Oklahoma City.
"Flow of Fluids Through Pipe Lines and the Effect of Pipe Line Friction," D. E. Foster, secretary mid-continent section American Society of Mechanical Engineers, Tulsa.
"Some Investigations in Briquetting of Oklahoma Bituminous Coal," Prof. James C. Davis, department of mechanics, college of engineering, Oklahoma university.
"Meta-nitrophenyl Ether," Dr. Hilton I. Jones, secretary Oklahoma section American Chemical society and professor of chemistry, Oklahoma A. & M. college.
"Mid-continent Gasoline," Dr. Charles K. Francis, chief chemist, Cullen Oil & Gas Co.
"Coal vs. Oil Cost Performance Chart," L. C. Lichty, department of mechanical engineering, University of Oklahoma.
At 7:30 o'clock in the evening a

Aged Man Mystified by Roof of Bills in Mail From Unknown Sender

While W. M. Reed, 619 South Guthrie avenue, was made happy yesterday in the receipt of an envelope from Geneva, Ind., containing a roll of bills wrapped in tissue paper, he is considerably mystified as to the donor and his motives. Geneva was the former home of Reed 25 years ago.

Reed is inclined to associate the gift with Willis Bloomer, a cousin, who disappeared from Geneva shortly after his marriage 30 years ago. Early in December he sent gifts to relatives in Geneva, and promised to be home for Christmas. One of the letters was mailed to Tulsa. When he failed to be in Geneva at the appointed time a nephew came here in an effort to locate him, but no man of that name was found in Tulsa.

The World at that time contained a story of the search and Mr. Reed believes that Bloomer, whom he thinks is living here, possibly under an assumed name, sent him the bills.

banquet will be staged at Hotel Tulsa and the entertainment between courses will be supplied by Kendall students.

The following day, May 29, will be spent in making an automobile tour of the Benge and Glenpool oil fields. The delegates will leave at 6 o'clock in the evening for St. Louis, where the general convention will be resumed.

BUY FOUR ELEVATORS

Tulsa County Farmers Association
Preparing to Handle Crops of
Own Production at Cost.

With the closing of the negotiations for the purchase by the Tulsa County Farmers association of the grain elevator at Collinsville, four elevators in the county will be under direct control of the organization. The farmers have already purchased elevators at Broken Arrow, Bixby and Owasso, and will continue to acquire grain storage plants in various parts of the county in addition to building a large central elevator in this city. Negotiations are now under way for the purchase of a site for the latter building.

Lewis Cline, county clerk and president of the association, who went to Collinsville yesterday, stated that the plans of the organization were being rapidly brought to a successful termination and that within a year the farmers of the county will be able to buy and sell on their own market. This, according to the plans of the members, will mean more money for the farmers and will allow them to supply local trade at a lower cost than in the past.

Believes All He Reads in Newspapers and Goes to Jail in Consequence

"Clothing coming down," read Frank Habner a few days ago and about sundown Friday night, within the shadow of the county courthouse, he proceeded to divest himself of his clothing. When H. D. Maxwell, chief deputy and W. T. Kuehner, deputy sheriff, appeared upon the scene, Habner had succeeded in eliminating his bodily covering to the place where his B. V. D.'s ought to be. He was taken to the county jail and is now held pending a sanity hearing. The officials of the county are attempting to locate relatives of the man, whom they believe live at Lawrence, Kan.

Expert permanent hair waving, at the N. Y. hair shop and beauty parlor, with the Frederic's latest improved machine.—Advt.

What's Your Hurry?

That's the way some
cleaners have been known
to leave Tulsa, having in
their little grips some of
our good neighbor's
clothes. So why take
chances.

We are here to stay and will
stay, ever remembering that
only by satisfying you we can
continue to grow.

YOUR EYES

are nature's choicest gift—do not abuse them.

Heed the first warning signal that nature gives and have them fitted with correct glasses.

Headaches, indigestion and dizziness are frequently caused by eyestrain and can be permanently removed with the right kind of lenses.

If you are in doubt as to whether you need them, come in this week and have your eyes examined. We will tell you frankly whether you need glasses or not.
